

Nameplate Labels

Identification & asset management for reusable packaging

The Nameplate is a durable label which allows you to permanently identify and track your reusable packaging without the costs and problems associated with hot-stamping and bolted nameplates. Our self adhesive nameplates have been pre-tested to withstand harsh environmental and washing conditions, extreme temperatures and UV exposure. We produce nameplates using numerous constructions to satisfy diverse uses; and we print on a wide variety of grades using standard colors, custom matched colors, or specialty inks.

Features of The Nameplate Label

- Can be customized to virtually any size, color and/or graphics
- Print with barcode, sequential number and/or human readable identification
- Constructed to withstand weather, temperature, abrasion or exposure to harsh chemicals

Benefits of The Nameplate Label

- Improve accuracy and efficiency in data collection processes for many activities including supply chain management, logistics tracking, and point-of-sale
- Cuts cost associated with hot-stamping and bolted nameplates

Nameplate labels are often used for:

- Property of:
- Track & Trace
- Return to:
- Branding
